Skills

- Languages: Python, Bash, C++, Dart, Flutter,
- Tools/Platforms: Kali Linux, RHEL, Windows Server, Firebase, Splunk, Nessus, Nmap, Nuclei, Subfinder.
- Soft Skills: Problem-Solving, Adaptability, Leadership, Threat Analysis, Critical Thinking, Communication Skills.

Projects

Recon-X | Python, Bash, Go Tools (Nuclei, Subfinder, Naabu) | Link Feb *2025*

- Engineered an automated, modular reconnaissance and vulnerability hunting framework using Python to orchestrate industry-standard offensive security tools.
- Developed a custom JSON parser (CVE Extractor) to filter noisy scanner logs, automatically isolating critical and high-severity CVEs into actionable reports.
- Implemented a targeted "Sniper Mode" for rapid zero-day vulnerability scanning and automated visual reconnaissance using headless browsers.
- Integrated MITRE ATT&CK framework mapping into the scanning pipeline for standardized threat reporting and enterprise risk assessment.

NovaPulse | Flutter, Firebase | Link *Mar 2024 - May 2024*

- Designed and developed an application showing all the local vendors or handymen for newcomers in the city.
- Implemented secure user registration, login, and data management using Firebase, providing round-the-clock availability.
- Enabled users to chat with the vendors or handymen in real time.
- Enhanced the user experience with cloud storage and a clean, intuitive interface with an easy-to-access menu.

Summer Training

RHCSA Summer Training: Mastering Linux System Administration| Lovely Professional University | Link

- Understanding and using essential tools for handling files, directories, command-line environments, and documentation. Creating simple shell scripts.
- Operating running systems, including booting into different run levels, identifying processes, starting and stopping virtual machines, and controlling services. Configuring local storage using partitions and logical volumes.
- Creating and configuring file systems and file system attributes, such as permissions, encryption, access control lists, and network file systems. Performing basic container management.
- Deploying, configuring, and maintaining systems, including software installation, updates, and core services. Managing users and groups. Managing security, including basic firewall and SELinux configuration.

Certificates

- CompTIA Security+ ce Certification (SY0 – 701) | CompTIA | Link *Feb 2025*
- Advent Of Cyber 2025 | TryHackMe | Link Dec 2025
- Red Hat System Administration II (8.2) | RedHat | Link *Jul 2025*
- Red Hat System Administration I (8.2) | RedHat | Link *Jun 2025*

Achievements

TryHackMe Global Top 1%

Attained a Top 1% global ranking by successfully completing 180+ practical cybersecurity rooms.

Top 10 in Google I/O Hackathon, 2024.

Achieved a top-tier ranking among 100+ participants.

Education

Lovely Professional University Phagwara, Punjab

- ***Bachelor of Technology – Computer Science and Engineering – CGPA: 8*** ***Aug 2024 - Present***

Mehr Chand Polytechnic College Jalandhar, Punjab

- ***Diploma – Computer Science and Engineering – Percentage: 72.29*** ***Aug 2021 – Jun 2024***

St. Joseph Boys School Jalandhar, Punjab

- ***12th – Percentage: 83.5%*** ***Apr 2019 - Mar 2021***

St. Joseph Boys School Jalandhar, Punjab

- ***Matriculation – Percentage: 83.25%*** ***Mar 2019***
